Leonardtown's New "Executive Inn & Suites" Park Avenue Hotel

The Town of Leonardtown has long been known as a charming historic town bordering scenic Breton Bay. Tourists and visitors can sense the Town's history, appreciate the scenic landscape, and enjoy our welcoming community. Yet still, something was missing for those desiring an overnight stay - a first class hotel. That need has now been met with the newly constructed *Executive Inn & Suites* Park Avenue Hotel. Conveniently located within walking distance of the Town Square shops and

center, continental breakfast, and free wireless and broadband access. All guest rooms include a 32" flat screen plasma TV, HBO, refrigerator, microwave, coffee maker, work desk, restrooms with Italian marble and other amenities. Mayor's Message

The Town Council and I have always worked toward creating a busy, friendly and inviting downtown Leonardtown. This past year has been a particularly challenging economic time, and certainly a disruptive period with so much highway and infrastructure repair and replacement. However there were some significant accomplishments that highlight the efforts of so many people toward our overall goals. Featured in this newsletter is the Executive Inn and Suites Park Avenue Hotel which opened its doors last December. While it has taken a few months to get the word out about this wonderful addition, word is certainly getting out.

Every year, the commanding officers of the world's four major test pilot schools get together along with their civilian deputies to compare curriculum, arrange exchanges, and discuss the challenges of educating experienced pilots to become flight test professionals. The US Navy hosted the 2009 meeting.

The Navy has sponsored the meeting before, but this year the visiting test pilot school personnel from England, France, and the Air Force

were housed in Leonardtown. Rusty Lowry, Technical Director of the US Naval Test Pilot School explained "The addition of the new Executive Inn in Leonardtown, combined with the number of restaurants within walking distance, made it an easy choice to just stay here and avoid bridge traffic and do something a little bit different."

Dining and social events also took place in Leonardtown. The formal conference dinner was hosted by Cafe des Artistes in their private dining salon. An informal barbeque sponsored by the local Navy League was held at the Lowrys' home in Leonardtown and was catered by Kevin's Corner Kafe. "Having social events that our guests could walk to turned out really well," Lowry said.

This may be one event, but to me it exemplifies the future for Leonardtown. These types of visitors bring an economic boost to all of our restaurants and shops, and encourage new ventures. It's also just nice to be able to show off our beautiful little town.

Sunny skies, wonderful weather, and delectable dishes brought an estimated 2,000 people to downtown Leonardtown on Sunday, September 20th for a *Taste of St. Mary's*. This event is sponsored annually

by the St. Mary's County Chamber of Commerce and offers St. Mary's County restaurants and food vendors an opportunity to showcase their specialty dishes in sample sized portions. Director of the Chamber and event organizer, Bill Scarafia, notes "there were 16 vendors this year, and each one had long lines all day long. In fact, several of the vendors had to make runs back to their businesses to replenish their rapidly depleting food supplies." While the tasty samples were served up, live entertainment by Music Temple, Geezers, and Bozo Diablo kept spectators dancing and singing in the Square. It was truly a festival type atmosphere. Kelly Rossi, one of the many people having a "taste of St. Mary's" offered, "what a great event! There are even bounce houses and face-painting for the kids. I can't get my daughter, Glynnis, to leave!" Mr. Scarafia added,

"The Chamber is pleased that we are able to promote the hospitality industry and bring the community together in a family friendly event." Mark your calendars for a *Taste of St. Mary's* 2010 which will take place on Sunday, September 19th, in the Leonardtown Square.

Town Streets that Honor Leonardtown Veterans

Through the years, four streets in Leonardtown were named to honor four native Leonardtown servicemen. These young men lost their lives while serving our country during war times.

Barthelme Street

Named in honor of Albert L. Barthelme, Jr. C.W.O. Barthelme served in the U. S. Army during the Vietnam War. On April 15, 1970, while approaching a landing zone in the area of Dak Seang, his helicopter and crew came under intense enemy ground fire. Although wounded,

the crew survived the crash and ran to cover, whereupon they were again hit with heavy sniper fire. It was during this attack that Barthelme was mortally wounded while saving the life of his crew chief. He was awarded the Silver Star for his heroic action. Albert loved Leonardtown and St. Mary's County, and was known in his unit for proudly sporting his green St. Mary's County tee shirt. On that fateful day, Albert was wearing the green tee shirt that provided his identification.

Downs Circle

Named in honor of Francis L. "Winkie" Downs. PFC. Downs served in the U. S. Army Air Corps during World War II. While on a combat mission in the South Pacific, his paratrooper unit was wiped out at Anzio.

Duke Street - Named in honor of Walter Francis Duke. Captain Duke joined the Royal Canadian Air Corps and then transferred to the U.S. Army Air Corps when the United States entered World War II. On June 6, 1944, Captain Duke was returning to base from a mission at the western edge of Burma Valley, when he circled back to the combat area to perform a search for his wingman

when he was jumped by a flight of Japanese Zeros. It was later reported that Duke shot down three of the Zeros before his fate. The Purple Heart was bestowed on Duke for his extraordinary sacrifice. This was to have been Walter's last mission, and a welcome home celebration was being planned when family and friends received word. A tribute to Duke can be found at the St. Mary's County Regional Airport, which was renamed the Captain Walter Francis Duke Regional Airport in 1996 in his honor.

Shadrick Street - Named in honor of Thomas H. Shadrick. Serving with the U. S. Army Air Corps during World War II, Sgt. Shadrick was killed in combat while on a mission in the South Pacific.

Leonard Hall Junior Naval Academy Celebrates 100 Years

Leonard Hall opened its doors on September 19, 1909. On September 19, 2009, Leonard Hall celebrated a Centennial Gala with 140 families at the J.T. Daugherty Center.

Since 1909, Leonard Hall Junior Naval Academy has provided Southern Maryland with graduates who have become leaders in the military, business, and the community. The school was established on the Loker Estate that had been purchased by the Jesuit Fathers. Leonard Hall, named in honor of Leonard Calvert, became the first Catholic school for boys in the original Calvert proprietary.

The main focus in the early years was agriculture and in 1941 the school adopted a military program. It is currently the only military academy in the state of Maryland. Today the school is flourishing with a non-denominational Christian, co-educational, military, college-preparatory program. The school proudly maintains high academic standards and instills the discipline, respect for authority, self-confidence, and leadership, which the Xavarian Brothers initiated over 100 years ago.

GOING GREEN IN LEONARDTOWN!

Preventing Pollutants from Flowing into Our Bay

Keeping our waters clean and pure is a huge part of conservation and “green” activities, and storm water drains are no exception. Unlike the water that goes down your drain to the sewer, water that flows into storm drains is not treated and filtered for pollutants. This contaminated water flows into canals, into streams and lakes, and then ends up in our bays and oceans. Everything other than pure rainwater is a potential contaminant that degrades water quality.

It’s very important that you help prevent contaminants from flowing into storm drains and never pour anything into them. Intentionally pouring water and pollutants into street gutters and storm drains is dangerous to the environment and is also illegal. This includes trash, grass clippings, leaves and other lawn debris. Household products washed or dumped into storm drains can flow directly into local creek and streams and threaten our clean water resources. Many of these products can be toxic to humans, fish and other marine life. Please do your part to keep our waterways clean!

Water Meter Installation Update

By now, many residents have seen the Town’s Capital Project Coordinator, Tony Wheatley, working with Delahay Construction to install water meter vaults at all single family residences in Town. This first phase of the project is approximately two-thirds complete and progressing ahead of schedule. We anticipate that all meter vaults will be installed by December 31, 2009. The next phase of the project is actually installing the water meters. This process will begin in November and proceed systematically until all meters are installed by the spring of 2010. The meters selected for installation will allow Town staff to capture readings with a remote receiver installed in a Town vehicle. A simple drive by of each location is all that is needed to read the water meter. We anticipate taking residential readings for two quarters and communicating that information to customers on their regular water bill. This information will also be used to develop a revised rate structure. We anticipate a new rate structure will be effective in 2011. Until then, water and sewer use will continue to be billed at flat rates. Future updates, including the revised rate structure, will be published in the Beacon and on the Town website. Please call the Town office if you have any questions.

Trash and Recycling Reminders

Residential trash is collected every Tuesday and Friday. Trash is accepted in 30-gallon cans with lids, cans on wheels, or totes issued by Goode Trash Removal. To guarantee collection, trash should be set out the night before or by 6:00 a.m. on the day of pick-up.

The next quarterly **bulk trash** pickup date will be Friday, December 4th. Bulk trash will be collected at the same time as your regular trash, so please ensure all your items are placed at the curb together.

Residential recycling collection is made on Wednesdays. To guarantee collection, your recycling tote should be set out the night before or by 6:00 a.m. the day of pick-up. With streamlined recycling, it’s easier than ever to recycle newspapers, paper, cardboard, glass and plastic bottles, jars, metal and aluminum cans, and other approved items.

Look for the Recycling Emblem on all your disposables.

Space-saving tip: Remember to break down cardboard boxes and other items before placing in your recycling tote.

Town residents wishing to receive additional information on Leonardtown trash service, or to request a trash or recycling tote, should contact the Town Office.

Fall Leaf Pick-Up

As part of its trash collection service, Goode Trash Service will pick up bagged leaves set out by Town residents on regularly scheduled trash collection days. This service is limited to 5 bags of leaves per household per collection day. Any remaining bags may be set out for pickup on the next trash collection day, but still observing the 5-bag limit. Please do not place piles of loose leaves in the street, as this is not part of the trash disposal service.

Snow Removal Changes

The State’s budget crisis has impacts on local municipalities as well. This year’s funding of Highway User Revenue, which local governments utilize for road maintenance and snow removal, was cut by 90% in recent weeks. While citizen safety is still the utmost concern, efforts to cut snow removal costs will be put into place. Snow accumulation less than two inches (2”) will not be plowed and only main routes will be kept plowed through the nighttime hours. We will continue to make every effort to ensure the quality service that Leonardtown residents are accustomed to.

Volunteers Needed at Tudor Hall and the Old Jail Museum & Visitor Information Center

The rewards of volunteering with the St. Mary's County Historical Society can embrace learning new skills, forming new friendships, and showing pride of our past. Volunteers can serve as docents in the Old Jail Museum, help to identify books and file in the Research Center and Library, explore Genealogical Research, archive and prepare materials for storage, documentation and processing, prepare exhibits and storyboards portraying county history, assist with maintenance projects, and assist administrative staff with mailings. Authors and Historians are also needed to share research and stories about the county and its rich history, as well as photographers who can regularly take pictures of Tudor Hall and the Old Jail. There's even a position for IT specialists to develop the web site and digitize archives.

Visit www.stmaryshistory.org/ to browse the St. Mary's County Historical Society on line. If you love history and wish to volunteer, contact Susan Wolfe at smchsdirector@md.metrocast.net or 301-475-2467.

U. S. Flag Donated to the Town

One day while sitting on a park bench in the Leonardtown Square, Ms. Sally Lake was observing the flags flying high. Her thoughts centered on her foster father, Clayton W. McWhirter, who served in the U. S. Army during WWII. This prompted Sally to donate the U. S. flag given to her by the Army upon his passing to the Town of Leonardtown. In appreciation of Sally's generous and honorable gesture, the Town is currently flying this flag in the Town Square.

What Our Residents Are Asking

What is the Significance of the Compass Rose featured at the Leonardtown Wharf?

The compass rose has appeared on charts and maps since the 1300's. The term "rose" comes from the figure's compass points resembling the petals of the well-known flower to indicate the directions of the winds (known as the wind rose).

Designers chose the Compass Rose as a tribute to Leonardtown Wharf's historical importance in the progression of Leonardtown's development.

In the Middle Ages, the names of the winds were commonly known throughout the Mediterranean countries as *tramontana* (N), *greco* (NE), *levante* (E), *siroco* (SE), *ostro* (S), *libeccio* (SW), *ponente* (W) and *maestro* (NW) using names from Greek, Latin, and finally the eight so-called rhumbs (Spanish or Portuguese rumbo, course, direction, ultimately from Latin rhombus) known to Mediterranean sailors in modern Italian.

In the earliest charts, north is indicated by a spearhead above the letter T (for *tramontana*). This symbol evolved into a fleur-de-lys around the time of Columbus, and was first seen on Portuguese maps. Also in the 14th century, the L (for *levante*) on the east side of the rose was replaced with a cross, indicating the direction to Paradise (long thought to be in the east), or at least to where Christ was born (in the Levant). The East point of the compass was often marked with a + or cross as it pointed to Jerusalem (from the point of view of Western Europe.)

The colors on the figure are supposedly the result of the need for graphic clarity rather than a mere cartographical whim. On a rolling ship at night by the light of a flickering oil lamp, these figures had to be clearly visible. Therefore the eight principle points of the compass are usually shown on the compass rose in black which stands out easily. Against this background, the points representing the half-winds are typically colored in blue or green and since the quarter-wind points are the smallest, they are usually colored red. The 32 points of the compass rose come from the directions of the eight major winds, the eight half-winds and the sixteen quarter-winds. Naming them all off perfectly was known as "boxing the compass".
